Dear Sister Edith

I rec'd. your kind letter this morning dated the 2nd and was verry glad to hear from you but verry sorry to hear of your sickness and am glad to hear of you being better hope this will find you entirely well.

Edith the Tea party is all over now and we have just got through. Baby was born at 4 o Clock and it is now 6 and you wouldent know any thing had happened. It is a nice big girl about 9 or 10 lbs.

(over)

Sadie had a hard time but it didint last near so long as before. last evening Sadie and Louie went out for a walk and came home and in the night was taken with labor pains but didint say anything untill I went home to Breakfast & after Breakfast I went back to the Eng. house and reported for work. then I went and got the Dr. and at noon I went after him again and the Nurse and we soon done business up. The Dr used Clariform to but no instruments.

The Nurse is a Mrs Todd. lives next Street to us so you see we didint have far to go after her.

We would liked to have had you but we didint know if we could depend on you or not at that time as you might be on a case and be making more money than you would here. but we would ~~that~~ have paid you had you come.

This Nurse charges $1.00 per day and if every thing goes well we will soon fire her.

Now Edith the first time you come to Cleveland be sure and come and see your nice little Niece

Frank & Edith

I must close and go mind the Baby. let us hear from you often. I will keep you posted how Sadie & Baby are getting along

Love from all Baby to Auntie
